Amendments to the Specification:

Kindly amend the specification as follows:

At page 5, immediately following the paragraph ending on line 9, add the following new paragraphs:

FIG. 11 illustrates an exemplary pattern in which each row is printed using a first set of pixels during a first pass and a second set of pixels is printed during a subsequent pass, with multiple media advances between the first pass and the subsequent pass.

FIG. 12 illustrates an exemplary pattern of separated lines, each line printed using a wide mask, with one set of pixels printed during a first pass, and a second set printed during a subsequent pass, with multiple media advances between the first and subsequent passes.
